

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Application of: Kim
Serial No.: 10/695,189
For: Deodorant composition with monocyclic, unsaturated sesquiterpene alcohols and glyceryl monoalkyl ethers as synergistic active deodorant agents
Filed October 27, 2003
New Docket No.: 632-001

Art Group: 1616

Examiner: Dodson, Shelley

Box Fee Amendment
Assistant Commissioner for Patents
PO Box 1450
Alexandria, VA 22313-1450

Response to Office Action Dated 2/28/06

Dear Sir:

Responsive to the Official Action dated 2/28/06:

The examiner has required restriction to one of the following inventions:

- I. Claims 1-11, drawn to clear propylene glycol free deodorant stick
- II. Claims 12-18, drawn to a combinatory anti-microbial mixture;
- III. Claims 19-23, drawn to a clear propylene glycol free deodorant stick and antimicrobial combination; and
- IV. Claims 24-31, drawn to clear deodorant compositions.

The applicant, herein, elects the invention in II, claims 12-18, drawn to a combinatory anti-microbial mixture. This election is with traverse since it is the applicants position that the deodorant sticks and compositions of groups I, III, and IV all function because of the antimicrobial combination of group II, which combination are parts of the deodorant compositions. Therefore, the applicant's position is that these inventions are related since the are used together, have the

same modes of operation and the same functions and the same effects.
